

Types of Scrip

There are three types of Scrip offered at Nativity:

1. Physical gift cards

- Families place their order for a physical gift card online via the www.shopwithscrip.com website. Orders for physical cards will be placed at 2pm on the First and Third Monday of each month. Cards will be ready for pick up during normal school office hours by end of school day the following Thursday.
 - i. If you are unable to pick up cards during normal school office hours, please email the scrip administrator to make arrangements.
 - ii. If you have extended family/friends who live out of the area and cannot pick up their cards, please do so for them and coordinate delivery to them. Nativity School is not able to mail out scrip cards.

2. Reload and ReloadNow

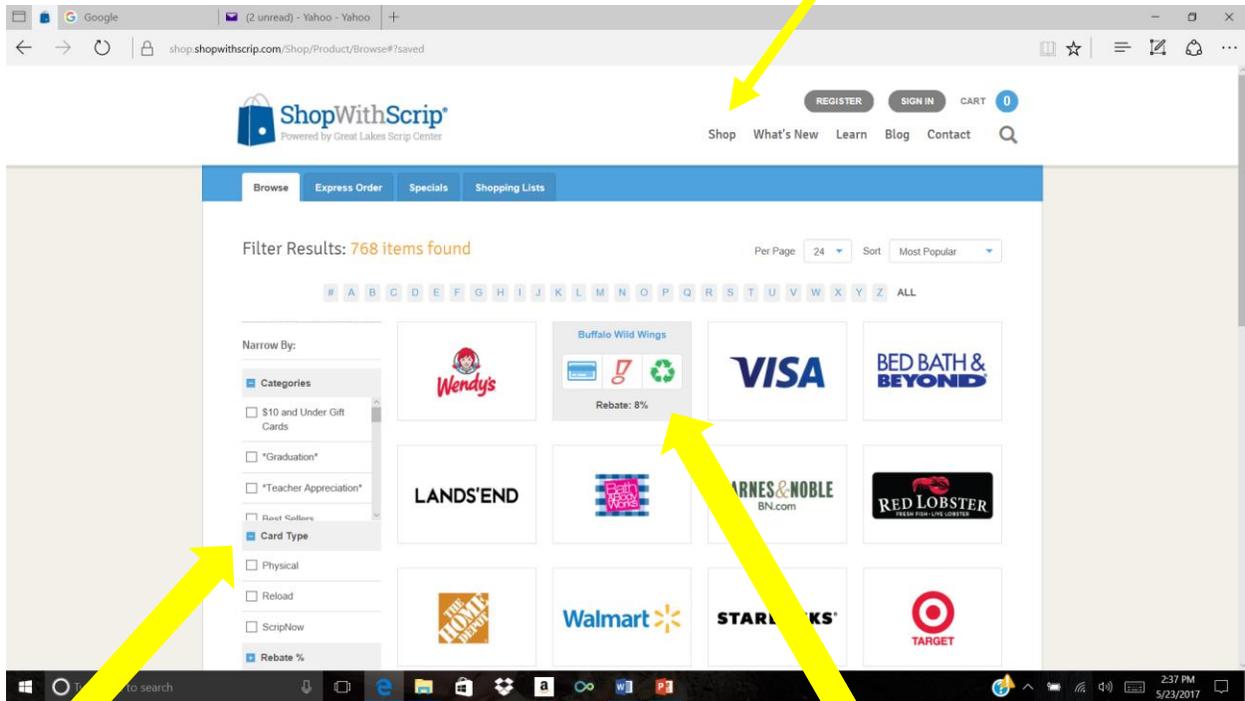

- This is for a physical gift card you've already purchased that can be reloaded online. There is a spot in each family account in which you can register your card once you receive it. Instead of placing a new order and waiting for your physical card to arrive in the bi-monthly shipment you can simply login and add money to it. ReloadNow retailers instantly make the funds available on your card while Reload orders are available in 24 hours.

3. ScripNow

- This is completely electronic and instant. You order scrip online and are emailed your scrip within a few minutes. ScripNow can be printed out and brought to a store or entered as payment during an online checkout. If using www.myscripwallet.com (which is a website optimized for mobile devices) you can also access a bar code to scan at checkout.
- ScripNow can also be purchased as a gift. You can print out the ScripNow and give it to the recipient, or you can enter their email address and select a delivery date and it will be sent to them electronically.

How can I tell which Retailors offer which type of Scrip?

Log onto your account at www.shopwithscrip.com. Select Shop from the main menu.

From the left-hand menu, you can sort the retailers based on what type of scrip they offer.

You can hold your mouse over each retailer logo and view the types of scrip offered. (Blue card for a physical card, red exclamation point for ScripNow, green recycling arrows for Reload).
If an icon is grayed out, then it is not offered.
